

SuperCal® Premium Sunset Orange Petchoa Petchoa 'SAKPXC032'

Height: 22 inches Spread: 32 inches Spacing: 16 inches Sunlight: **O** Hardiness Zone: (annual) Group/Class: SuperCal Series **Description:** 

An exceptional series known for large, bright and vibrant flowers and excellent performance; vigorous, early blooming, and able to handle summer heat; excellent resistance to powdery mildew

## **Ornamental Features**

SuperCal Premium Sunset Orange Petchoa is blanketed in stunning gold trumpet-shaped flowers with orange overtones at the ends of the stems from mid spring to late summer. Its pointy leaves remain green in color throughout the season.

## Landscape Attributes

SuperCal Premium Sunset Orange Petchoa is a dense herbaceous annual with a trailing habit of growth, eventually spilling over the edges of hanging baskets and containers. Its medium texture blends into the garden, but can always be balanced by a couple of finer or coarser plants for an effective composition.

SuperCal Premium Sunset Orange Petchoa is recommended for the following landscape applications;

## **Planting & Growing**

SuperCal Premium Sunset Orange Petchoa will grow to be about 22 inches tall at maturity, with a spread of 32 inches. When grown in masses or used as a bedding plant, individual plants should be spaced approximately 16 inches apart. Its foliage tends to remain dense right to the ground, not requiring facer plants in front. This fast-growing annual will normally live for one full growing season, needing replacement the following year.

This plant should only be grown in full sunlight. It prefers to grow in average to moist conditions, and shouldn't be allowed to dry out. It is not particular as to soil type or pH. It is highly tolerant of urban pollution and will even thrive in inner city environments. This particular variety is an interspecific hybrid. It can be propagated by cuttings; however, as a cultivated variety, be aware that it may be subject to certain restrictions or prohibitions on propagation.

SuperCal Premium Sunset Orange Petchoa is a fine choice for the garden, but it is also a good selection for planting in outdoor containers and hanging baskets. Because of its trailing habit of growth, it is ideally suited for use as a 'spiller' in the 'spiller-thriller-filler' container combination; plant it near the edges where it can spill gracefully over the pot. It is even sizeable enough that it can be grown alone in a suitable container. Note that when growing plants in outdoor containers and baskets, they may require more frequent waterings than they would in the yard or garden.
