Zebra Plant

Aphelandra squarrosa

Plant Height: 24 inches

Flower Height: 3 feet

Spread: 24 inches

Sunlight: ●

Hardiness Zone: 10b

Description:

This amazing plant will grow quite large in tropical enviroments, but is perfectly suited as a housplant or garden annual in colder areas; seasonal, yellow bracted flower spikes are stunning; deep green glossy leaves with contrasting white veins

Features & Attributes

Zebra Plant features bold spikes of yellow tubular flowers with yellow bracts rising above the foliage from late spring to mid summer. Its attractive glossy oval leaves remain dark green in color with distinctive white veins throughout the year.

This is a multi-stemmed evergreen houseplant with a mounded form. This plant should not require much pruning, except when necessary to keep it looking its best.

Planting & Growing

When grown indoors, Zebra Plant can be expected to grow to be about 24 inches tall at maturity extending to 3 feet tall with the flowers, with a spread of 24 inches. It grows at a medium rate, and under ideal conditions can be expected to live for approximately 10 years. This houseplant should only be grown away from direct sunlight or in a room with strong artificial light. It prefers to grow in average to moist soil. The surface of the soil shouldn't be allowed to dry out completely, and so you should expect to water this plant once and possibly even twice each week. Be aware that your particular watering schedule may vary depending on its location in the room, the pot size, plant size and other conditions; if in doubt, ask one of our experts in the store for advice. It is not particular as to soil type or pH; an average potting soil should work just fine.

There are many factors that will affect the ultimate height, spread and overall performance of a plant when grown indoors; among them, the size of the pot it's growing in, the amount of light it receives, watering frequency, the pruning regimen and repotting schedule. Use the information described here as a guideline only; individual performance can and will vary. Please contact the store to speak with one of our experts if you are interested in further details concerning recommendations on pot size, watering, pruning, repotting, etc.

-- THIS IS A HOUSEPLANT AND IS NOT MEANT TO SURVIVE THE WINTER OUTDOORS IN OUR CLIMATE --
